-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7,8,10,11,13-17,19,21-23,30,31,33,34,36,37 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5497564 (Allen et al).

Allen teaches a foot-receiving device as claimed including a foot-housing member (shoe 12), a closure system (shown in figure 6) including a mesh (98), a securing system (adjustable band 96 and/or lacing eyelets 92 and shoe laces), one strap (adjustable band 96), and a secondary closure system (shoe lace and eyelets 22 of the shoe 12). The closure device, including the mesh panel, has a height (see figures 5 and 6) that clearly extends over the top of the instep. In fact, depending on the wearer, the panels could overlap themselves and therefore completely cover the instep, although this is not claimed.

3. Claims 9,12,18,20,32,35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allen as applied to the claims above, and further in view of US 6532687 (Towns et al).

Towns teaches a magnetic fastener arrangement for straps on footwear. It would have been obvious to provide the adjustable band/strap of Allen (25) with a magnetic

fastener arrangement, as taught by Towns, to provide a fastener that is simple and easy to operate.

Response to Arguments

4. Applicant's arguments filed Nov. 3, 2006 have been fully considered but they are not persuasive.

Regarding applicant's argument with regard to the new limitation, see the rejection above wherein the issue is addressed.

The rejection with regard to Monti has been withdrawn in view of applicant's amendment.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F. R. 1.111, including:

-“The reply must present arguments pointing out the *specific* distinctions believed to render the claims, including any newly presented claims, patentable over any applied references.”

--“A general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section.”

-Moreover, “The prompt development of a clear issue requires that the replies of the applicant meet the objections to and rejections of the claims. Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP 2163.06” MPEP 714.02. The “disclosure” includes the claims, the specification and the drawings.

8. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
